***Restriction/Election***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-11, 13-14, 16-17, 19-20 and 22-23, drawn to an ionization chamber, classified in class 250, subclass 423R.
- II. Claims 12, 15, 18, 21 and 24, drawn to a method using a mass analyzer for analyzing ions produced from an ionization chamber, classified in class 250, subclass 282.

The inventions are distinct, each from the other because:

Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the combination as Group I reciting the structure of an ion chamber for producing ions, which can be used to treat a device in a system for example a focusing ion beam system or an ion implantation system. The subcombination has separate utility such as Group II reciting a method using a mass analyzer for analyzing ions produced from an ion source in a mass spectrometer apparatus.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Art Unit: 2881

A telephone call was made to Bret E. Field on 12-12-2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Examiner *Kiet T. Nguyen* whose telephone number is (703) 308-4855.

Any inquiry of a general nature or relating to the status of this application should be directed to the Group receptionist whose telephone number is (703) 308-0956. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9318.
